There's so much on offer in the land-based sector from agriculture and animal management, to equine studies and arboriculture. It's an industry full of exciting opportunities.

We've got full and part-time courses from school leaver and adult courses, through to University courses. We have excellent facilities on our 800-hectare estate and our own bus service which offers pick up and drop off covering areas from Worthing to Hastings up to Crowborough and across to Crawley and Horsham.

We are offering a free shuttle pick up to and from Lewes train station every half an hour, and have free parking on site. No need to book, join us for personal tours of our first-rate campus.
